9 March 1959

MEMORANDUM FOR : Deputy Director (Plans)

SUBJECT : Discussions with C. L. Johnson on 4 March 1959

1. A meeting was requested by Mr. C. L. Johnson on 4 March 1959 the following persons were present:

C. L. Johnson, LAC

LAC

LAC

LAC

EAFB

FOG

Contracting Officer

2. A number of items were discussed and the most important were as follows:

(a) [] indicated his desire for greater control of work performed for FOG and proposed an ECP (Engineering Change Procedure) be put into effect as soon as possible. The undersigned, after briefly discussing the need for similar controls indicated he would strongly recommend the procedure be effective for our work also. A copy is attached for your review.

(b) Apparently Mr. Johnson had been advised prior to the meeting that [] was interested in obtaining outside technical advice on the J-75 engine program, possibly an ADC type like Dick Miller. This fact apparently disturbed Mr. Johnson since he did not feel that outside advice was required. I did my best to assure him that other than some necessary controls on cost and work I didn't feel any other changes were contemplated.

(c) Mr. Johnson discussed a proposal for U2-B's which he was to present that same day. His proposal was based on operating with the AF as we did on our first contract with him.

SECRET

3. Mr. Johnson requested that I arrange a meeting with you on Wednesday to discuss some or possibly all of the aforementioned items. I subsequently learned that he has scheduled a meeting for Tuesday afternoon (March 10th).
